

Regions 6 & 8 Innovative Teacher Support Network

Since 2018, SWWC has worked with the New Teacher Center and member school districts to offer a high-quality, evidenced-based training for instructional coaching. Through this training, instructional coaches have been able to support both new and tenured teachers in improving student achievement, elevating instructional practice and increasing educator effectiveness. Participating districts have seen great results and impact, along with a value-add for teacher recruitment and retention. Contact us about upcoming training opportunities for the 2021-22 school year.

PARTICIPATING SCHOOLS

BOLD	Montevideo
GFW	Pipestone Area
Jackson County Central	Redwood Area
MACCRAY	SWWC ELCs
Marshall	Worthington

HOW DO INSTRUCTIONAL COACHES SUPPORT TEACHERS?

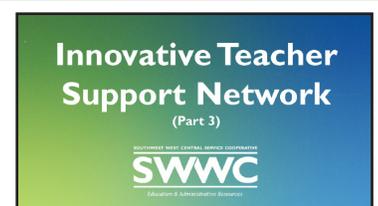

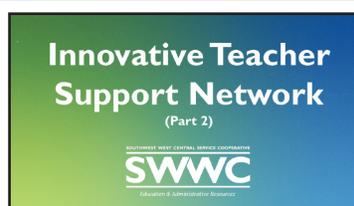

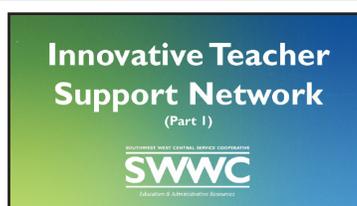

- Asset-based model aligned to student's SEL and academic needs.
- Framework centered around both teacher and student growth.
- Evidence-based processes and tools that have statistically shown significant impact on student achievement.

WHAT DOES THIS MEAN FOR ME AS A TEACHER?

- A district using the NTC instructional coaching model is committed to your success.
- Receive support from trained instructional coaches to guide meeting all learner needs.
- Job-embedded support focused on moving teaching practice forward.
