## TESTIMONIAL

*I love my job as a special education teacher! I was well prepared to understand and take on all the aspects of the job – from collaborating with colleagues, administrators and families to using evidence-based practices with my students. I have learned to problem solve in so many different ways – to advocate for my students and myself when things are not exactly as they should be.*

*–Gloria, Special Education Teacher, PASS-IT scholar, graduate of the ABS undergraduate program*
